PCO UPDATE

We are excited to announce that Recovery Coach Lauren Connors has started with us full-time! Lauren will be partnering with the Plymouth County Sheriff's Department to provide resources to individuals currently in or recently released from incarceration with a history of substance use.

Some research has shown that an estimated 65% of the United States prison population has a history of Substance Use Disorder (SUD). Decades of science shows that providing substance use treatment in the jail setting and immediately following release works in reducing both substance use and recidivism.
